10. Sound Restrictions

Please be aware of the strict noise regulation applied in Switzerland. We thank you in advance for your good collaboration on this.

The Swiss Law limits the power amplification where the audience is the most exposed. The limit is **100 dB(A) LAeq on 60 min, measured during the event.**

The person responsible for those measurements as well as the sound engineer of the stage will ensure that this law is duly respected. The sound level will be measured during all shows with the help of a soundmeter according to norm CEI n°651 and CEI n°804, calculated on a basis of 60 minutes. Controls might be done by authorities.

The Artist and his staff, including his sound engineer, shall respect this law.
